Press Release

Inferno Wood Pellets and International Forest Products have teamed up to Serve You Better.

Inferno Wood Pellets is pleased to announce that it has appointed International Forest Products as its exclusive Sales Agent. Inferno is committed to producing and distributing its leading-brand of wood pellets and is excited about this next step into the growing field of alternative fuels.

“IFP is the right choice for us” says Inferno’s owner, John Ferreira. “They bring the logistical expertise, the expansive network of customers to the right level of distribution, and the strong financial presence that we desire for our business.”

Our customers can rest assured that they will have the same ‘mill-direct’ access to our product along with having the tremendous market presence and back-office support that IFP brings.

Inferno Wood Pellet manufactures premium quality wood pellets, which are sold to distributors and retailers throughout New England. The Inferno facility is located in Rumford, Rhode Island. In addition to providing exceptional service and competitive pricing, Inferno is especially proud of offering wood pellets that are environmentally friendly.

IFP is a 38-year-old, Boston-based family company dedicated to the worldwide business of forest products marketing. Its clear focus is to be the marketing arm and financial partner of the independent producer, servicing their need to be on the forefront of the global trends for their products.
